

Preliminary National Diagnostic for Environment Statistics

Country: VANUATU

Presenters: Ben Tokal
&
David Talo

PRESENTATION OUTLINE

- NATIONAL POLICY
- ENVIRONMENTAL CONCERNS
- POLICY PRIORITIES & TOOLS
- STAKEHOLDERS & INSTITUTIONS
- DATA SOURCES
- EXISTING COMPILATIONS
- PRIORITY ENVIRONMENT DATA NEEDS
- CONSTRAINTS
- OPPORTUNITIES: PRIORITY ACTIONS

National vision

THE VANUATU NATIONAL SUSTAINABLE DEVELOPMENT PLAN

SOCIETY PILLAR		ENVIRONMENT PILLAR		ECONOMY PILLAR	
SOC 1	Vibrant cultural Identity	ENV 1	Food and Nutrition Security	ECO 1	Stable and Equitable Growth
SOC 2	Quality Education	ENV 2	Blue-Green Economic Growth	ECO 2	Improve Infrastructure
SOC 3	Quality Health Care	ENV 3	Climate and Disaster Resilience	ECO 3	Strengthen Rural Communities
SOC 4	Social Inclusion	ENV 4	Natural Resource Management	ECO 4	Create jobs and business opportunities
SOC 5	Peace and Justice	ENV 5	Ecosystems and Biodiversity		
SOC 6	Strong and Effective Institutions

NATIONAL VISION

THE VANUATU NATIONAL SUSTAINABLE DEVELOPMENT PLAN

- Sustainable development
- Biodiversity
- Green Economy
- Ecosystem

Vanuatu has a vision through its National Plan for a sustainable development, Biodiversity, Green Economy and Ecosystem for Vanuatu that is ; "A Stable, Sustainable and Prosperous Vanuatu". (The people's Plan. 2016, pg 2)

National Sustainable Development Plan 2016 to 2030

4

NATIONAL VISION

THE VANUATU NATIONAL SUSTAINABLE DEVELOPMENT PLAN

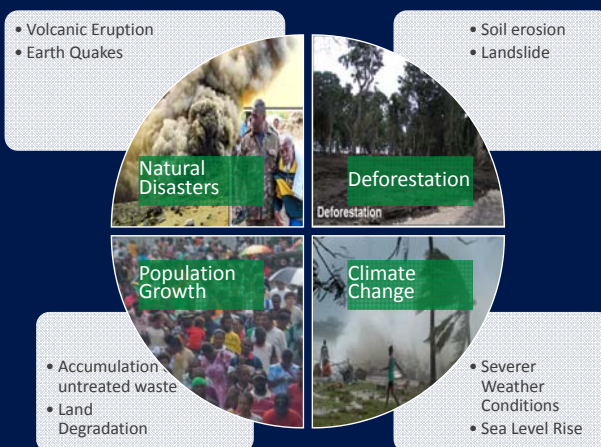

Development Aspiration:

“...Maintaining a pristine natural environment on land and at sea that serves our food, cultural, economic and ecological needs;

With enhanced resilience and adaptive capacity to climate change and natural disasters;...”

(The People’s Plan. 2016, p.4)

ENVIRONMENTAL CONCERNS

POLICY PRIORITIES AND TOOLS

National Sustainable Development Plan

Waste & Pollution Strategy

Environment policy

Land use Policy

Climate Change and Disaster Risk Reduction Policy

Ocean Policy

7

STAKEHOLDERS AND INSTITUTIONS

Stakeholders in environment sustainable development :

1. Environment
2. Lands
3. Climate change
4. Forestry
5. Geology & Mines
6. Water
7. Agriculture
8. Fisheries
9. Department of Strategic, policy, Planning & Aid Coordination. (DSPPAC)
10. Others

- There are institutional mechanisms in place to implement certain policy mentioned earlier on. The environment policy does mentioned the Sustainable Resource Management, and Waste management and Pollution control. Like most pacific island countries climate change is one of the cross cutting issues we face as well.

STAKEHOLDERS AND INSTITUTIONS

Role of the VNSO in environment statistics:

Add a footer

10

DATA SOURCES

1. URA (Utilities Regulatory Authority).
2. Ministry of climate change
3. Department of Environment
4. Department of Water
5. Dept of Energy
6. Dept of Land and Mineral resources
7. Dept of Forestry
8. Dept of Agriculture
9. Dept of Fisheries
10. VNSO and others

EXISTING COMPILATIONS

No SEEA account has yet been published.

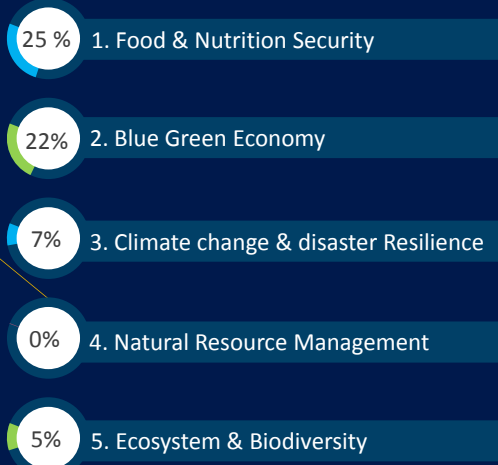

Land Account:

- Current status:
 - i. Physical Land cover :- Only data for 1991 still need another data reference point.
 - ii. Physical Land Area Account: Experimental Physical Land Account (Urban Areas of ; Port Vila & Luganville only) .
 - iii. Physical Land value Account: Still Pending.

PRIORITY ENVIRONMENT DATA NEEDS

Environment Pillar

- (NSDP), Environmental pillar has 5 Environmental Targets.
- There are available data collected by the NSO via pervious surveys, census and administrative records – Few of the targets are very low in terms of current data availability .
- Specifically target 3 -5 have very low rate in data availability.
- With the responsibility that Department of Strategic, policy, Planning & Aid Coordination. (DSPPAC) is placing NSO as the core leading agency for monitoring the NSDP, and the Annual Development Reports (ADR), So far we indicated that the 3 targets listed above is the three prioritised targets that needs consideration.

PRIORITY ENVIRONMENT DATA NEEDS

Target 3:

Climate Change & Disaster Resilience

1. Climate Change

2. Energy

Target 4:

Natural Resource Management

3. Land

4. Water

5. Solid Waste

Areas included in the VNSO framework include biodiversity, extractive industries, green growth, chemical use, water resources, conservation areas, waste management, emissions, and erosion.

Target 5:

Ecosystem & Biodiversity

6. Ecosystem

CONSTRAINTS

Data Limitation

Institutional Coordination

Limited Capacity

Funding

OPPORTUNITIES: PRIORITY ACTIONS

- **The National Sustainable Development Plan together with the Environment Policy formulation has given a stronger emphasis in environment data collection.**
- **Development of SEEA with the assessment report done in 2016 and the M& E has strong linkage with the NSDP.**
- **NSDP Baseline Survey**
- **National Data collection frame work**
- **Institutional Coordination for Environment**
