Project on Developing Statistical Quality System at CAPMAS: Country-Focused Training in Japan [23 February | Chiba, Japan]

Thirteen participants of the JICA funded Project Developing Statistical Quality System at Central Agency for Public Mobilization and Statistics (CAPMAS) of the Government of Egypt visited SIAP and got training on statistical data analysis, using an example of data of household income and healthcare expenditure survey. They also had a practical training by making presentations about their organizations and system of production statistics. They were provided advice for improvement of their systems by the lecturers of SIAP.

Events Highlights

eLearning course | 19 February to 16 March 2018

Integrated Economic Statistics to Support 2008 SNA Implementation

The objectives of the training program was to (i) rationalize data sources for economic statistics and understand the inter-linkages between the various data collections and compilations (ii) development of effective economic census questionnaires and tabulation plans and (iii) use of economic census results for other economic data collections and in the compilation of national accounts.

The course provided a strong foundation on economic statistics and practical understanding the 2008 System of National Accounts methods. It also covered use of economic census and business registers for compilation of economic accounts and preparation of supply and use tables.

1,450 middle to senior level officials involved in national accounts compilation or the design of economic censuses and surveys were enrolled from 35 National Statistics Offices (NSOs) and 2 Central Banks in Asia and the Pacific, and 13 NSOs in Africa.

Coming up Events

⇒ [First eLearning Course on Price Statistics](#) [1 - 29 March 2018 | On-line]

The course will provide a strong foundation for the practical understanding and application of the theory of price indices, techniques for price index construction and compilation specially in the context of compilation of SDG related indicators.

Middle to senior level price statisticians and similar level statisticians in charge of designing, data collection, processing and dissemination of price statistics from NSOs and Central Banks in Asia and the Pacific, and NSOs in Africa will participate in the programme.

⇒ [Second Statistical Leadership Training of Heads of NSOs](#) [27 - 28 March 2018 | Chiba, Japan]

Specially to lead SDG indicators compilation in collaboration with the Partnership in Statistics for Development in the 21st Century (PARIS21) Seven high level officials will participate from NSOs of Iran, Maldives, Lao PDR, Pakistan and Sri Lanka.

⇒ [Workshop of Quality on Statistics for SDG Indicators](#) [23 - 25 April 2018 | Chiba, Japan]

The workshop will be held in collaboration with the United Nations Statistics Division (UNSD) and the Government of Japan. This will provide an opportunity to participants to learn basic concepts and frameworks for the quality of statistics through hands-on sessions, with the overall aim of enhancing the capacity to produce a set of statistics including indicators, and to track Sustainable Development Goals (SDGs).
