

# SIAP

Statistical Institute for Asia and the Pacific

# TRAINING COMPONENT OF THE REGIONAL ACTION PLAN

Sixth Workshop on Forging Partnerships in Statistical Training in Asia and the Pacific-Networking and Coordination for Agriculture and Rural Statistics.  
Tsukuba, Japan ,2-4 Sep, 2014.

# BACKGROUND

## Constraints to agriculture sector statistics

- Technical skills of staff
- Methodological issues
- Role of statistics in policy and many more others

## Coordinating the training component of the RAP

- Regional network of training providers/national training institutions/universities
  - Key output of the RAP training component
    - Sub-group on Agriculture and rural statistics
- Some training activities undertaken by SIAP and National Training Institutes

# TRAINING INITIATIVES

## Regional

- SIAP RAP courses
- SIAP JICA courses

## National

- India/Iran/Philippines
- FAO statistical capacity building programme + other training related to agriculture censuses

# PRINCIPLES AND STRATEGY

Training Needs Assessments

Synergies with regional/subregional training initiatives (common areas of concern)

Country Focused Training

Country Specific Requirements

Producers and Users of statistics

Advocacy-awareness raising events

# TARGET GROUPS

## Individuals

- Managers/technical staff
- Users/training providers

## Groups

- Training Providers
- Politicians/decision makers

## Organisations

- Producers and users [NSO's ministries, etc]
- Institutional training providers

# TRAINING GOALS

- Increase knowledge/skills and competencies

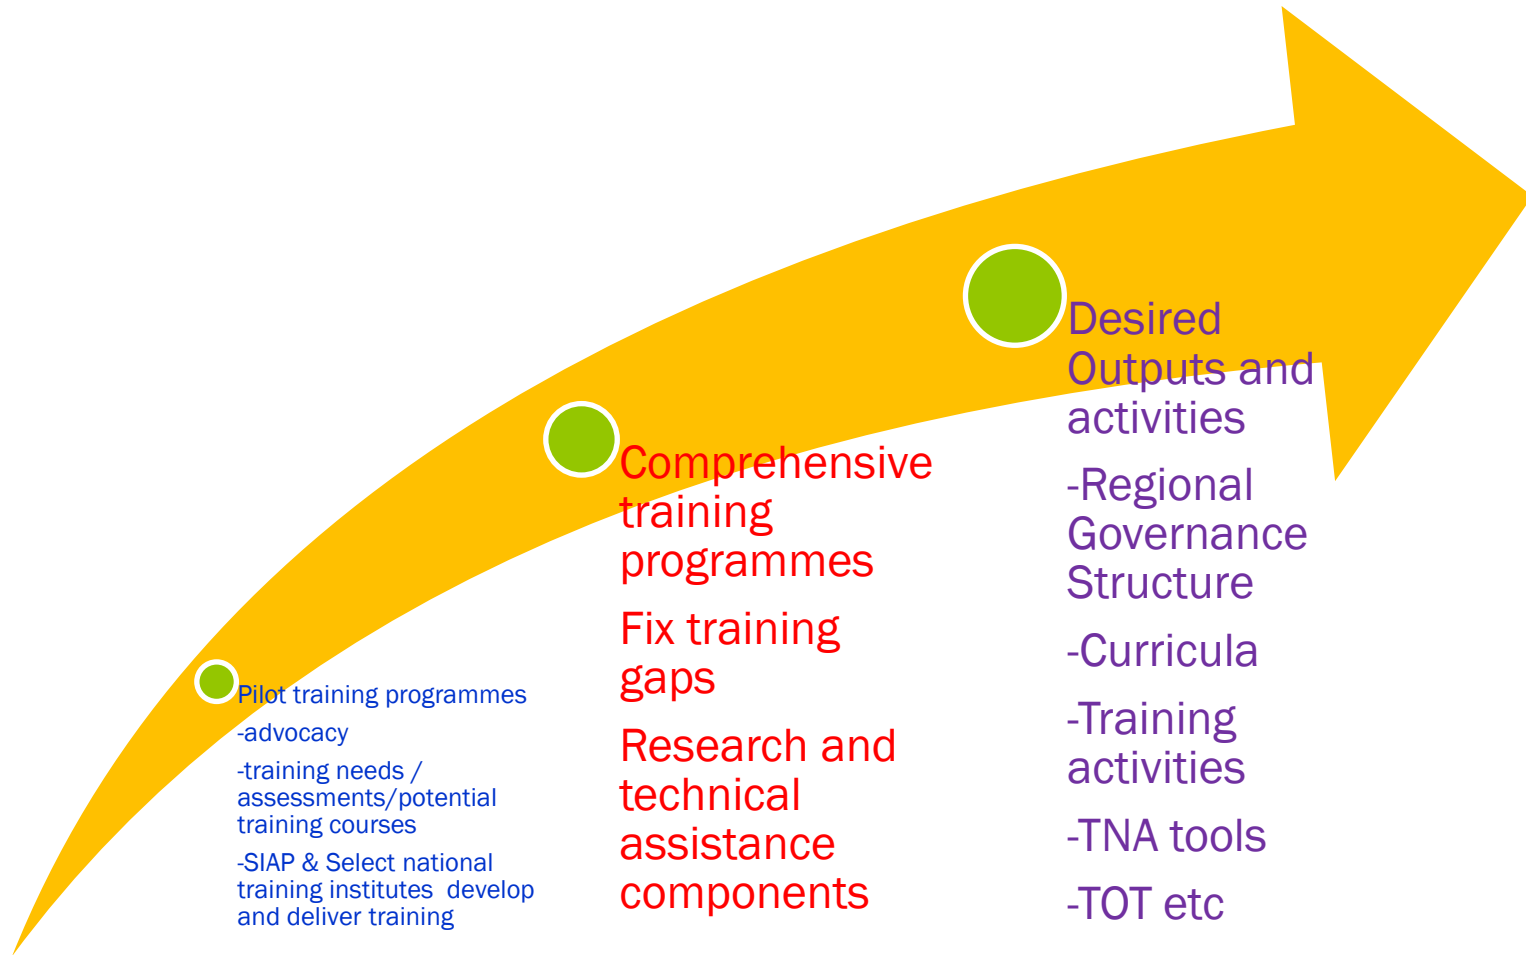

## Groups

- Statistical literacy and role of agriculture statistics

## Organisations

- Capabilities to identify priority training needs
- Capacity to design and deliver effective training

# TRAINING IMPLEMENTATION

# IMPLEMENTATION ISSUES
