

Thirteenth Management Seminar for the  
Heads of National Statistical Office in Asia  
and the Pacific

6-7 December 2017 Tokyo, Japan

## Transformation action of China:

Advancing official statistical reform to implement  
the Asia-Pacific collective vision and framework for  
action

Wang Ping

National Bureau of  
Statistics

**SDG implementation in China**

**Transformation in action of NBS**

**Challenges and Opportunities**

**Next step**

## SDG implementation in China

- Integrate the Agenda into domestic mid- and-long term development strategies:
  - 13th Five-Year Plan
  - The Plan of Health China 2030
  - The Plan of China Education Modernization 2030

## SDG implementation in China

- Establish domestic inter-agency coordination mechanism: comprises 43 line ministries
- Formulate National Plan on Implementation of the 2030 Agenda
- Release China's Progress Report on Implementation of the 2030 Agenda for Sustainable Development

## Transformation in action of NBS

### Action area A: NBS work on SDG

- Member of IAEG-SDGs representing East Asian subregion: take part in the consultation on SDG global indicator framework
- Consulted with countries in the subregion regarding indicator setting, tier classification and data reporting
- Contacted with line ministries regarding the SDG global indicator framework
- Participated in the work of the IAEG-SDGs working group on interlinkages as a Co-chair

## Transformation in action of NBS

### Action area A:

#### NBS work on SDG

- Establishing working group for SDG in NBS

#### Relative work

- Establishing Statistical Expert Advisory Committee
- Strengthening statistical capacity building

## Transformation in action of NBS

### Action area B:

- Promulgating Regulation of Implementation of Statistics Act
- Formulating statistical methodology reform plan
- Implementing the national statistical quality assurance framework
  - *Establishing the statistical investigation working specification in poverty monitoring and household investigation.*

## Transformation in action of NBS

### Action area C:

- Researching to establish data sharing mechanism among departments, include:
  - The principle and content of data sharing*
  - The list of statistical data sources*
  - Providing and using of data*
  - Working mechanism*

## Transformation in action of NBS

### Action area D:

- Formulating statistical business process specification according to GSBPM
- Formulating the standard of statistical metadata
- Updating and maintaining statistical survey metadata annually

## Transformation in action of NBS

### Action area E:

- Organizing international seminar : Building sustainable statistical capability –implementation and assessment for 2030 agenda and SDG
- To prepare and organize the international seminar of sustainable development indicator by trust fund in 2018

## Challenges and Opportunities

### Global SDG monitoring: major challenges

- Methodology  
Tier III indicators (about 35%); Metadata
- Data gap  
Assessment on data availability: around 34%
- Statistical capability

## Challenges and Opportunities

### Opportunities:

- To have an integrated approach to work on the national indicators with global indicators as much as possible
- To improve existing surveys and censuses to match the new need
- To strengthen statistical capability building
- Joint efforts with all stakeholders: localization of SDG monitoring indicators, global and national data plan

## Next step

- To research the national indicators framework for monitoring the implementation of SDG
- To strengthen communication and cooperation with the line ministries to assist the line ministries on researching of indicator and methodology
- To strengthen statistical capability building
- Continue to play the role as member of IAEG-SDGs representing East Asian subregion: take part in the consultation on SDG global indicator framework

**Thank you for your  
attention!**
